STORY

After the events in *Oni-Link begins*, princess Zelda put an end to Link's banishment and the hero could return to Hyrule.

In order to keep the secret of Termina's world, the princess had to hide the events that occurred there and she let the people of Hyrule live in an illusory peace .

Shocked by his banishment, and hardly assuming a status of hero he was not sure he deserved, Link went to live alone in a forest Zelda offered to him.

Meanwhile, Zelda started the great task of modernization in the country in order to meet the peoples expectations give the right impression in this time of peace.

However, both of them knew that the terrible Ganon could not be defeated, and that from the bottom of hell, he was gathering his forces with a plan to attack Hyrule once again .

After a long and unbearable time spent looking for a sign of a future attack, an unexpected event came and it started

START YOUR GAME

When you begin the game, you first see the logo, press (B) to advance to the title screen and another time to arrive to the select player screen:

You have at your disposal three slots to save your game. Choose, with the keyboard arrows, an empty slot to start a new game or a filled one to load the game it represents.

If you choose a free slot, the game starts immediately after a short opening. But if you choose a saved game, you will reach the following choice:

Select LOAD to continue the saved game, ERASE if you want to delete it or RETURN to go back on the previous choice.

Keep in mind if you load a saved game, the place where you restart will be the entry of the area.

Also keep in mind, a deleted game can't be recovered.

OPTIONS

The player select screen can also take you to the options menu. To do that, just put the pointer on OPTIONS and press (B). and you arrive on the following screen:

Here you can adjust the music and sound levels, placing the pointer on the desired line and then pressing right to increase and left to decrease.

RETURN takes you to the player select screen and saves your modifications.

RECORDS

The player select screen finally allows you to see the records you obtain during your various games. To do that, place the pointer on RECORDS and press (B). You arrive on this screen:

Here you can see your best time, as well as special ranks you obtain with your various games. These ranks are marked with a Golden Ocarina. To see how to get them, just place the pointer on the rank and press (B).

The Triforces represent the rank you obtained (or not) in Return of the Hylian and the golden grail is your rank in Oni-Link Begins.

RETURN takes you to the player select screen. If you choose ERASE you reset all your records in Time to Triumph.

CREDITS

Time To Triumph is a game realized by Vincent Jouillat, with help from Lobalùz (help in the conception, checking of dungeons, graphics, translating), from Raiden (illustration of the game, with the title screen and the opening) and from Scyllahyde (graphics).

Other assistants such as Neike60, ogp and Harvestland helped with the graphics.

The game was realized in C++ with SDL librairies, SDL_image, SDL_mixer, SDL_gfx and FMOD.

The graphics come from *the Legend of Zelda A Link to the past*, from *Secret of Mana* and from *Secret of Evermore*, *Chrono Trigger*, *Castelvania Vampire's Kiss*, *Plok*, *Super Mario Bros. 2*, *Illusion of Time* and *Sword of Mana* except for some new patterns and characters.

Musics and sounds come from various *Zelda*, *Chrono Trigger*, *Final Fantasy 6* and *7*, *Plok*, *Secret of Mana*, *Secret of Evermore*, *Sword of Mana*, *Mystic Quest*, *Phoenix Wright 1* and *3*, *Super Mario Bros. 2*, *Dr. Mario*, *New Super Mario Bros*, *Illusion of Time*, *Street Fighter 2*, *Ice Climbers*, *Donkey Kong Country 2*, *Star Ocean II*, *Perfect Dark*, *Super Metroid*, *Metroid Prime*, *Castelvania Vampire's Kiss*, *Banjo and Kazooie*, *Naruto*, and others.
